Fundamental Vision

There is always a purpose before an action, so is for our initiative under the banner of NAVKIRAN EDUCATION FOUNDATION, Dhuri, we believe in NO LIMITS for doing GOOD. Human life is been supposed to be a benign gift from the all mighty, we are bestowed with all super capabilities which are meant to be used for the betterment of the world around. Core human values are not meant to be drained out in a whimsical manner; rather every effort made by humans should be focused upon bringing overall good for the present and the future generations. We at NAVKIRAN are propelled to address such basic pitfalls that play major roll in human development, especially to augment the human capital creation process. Team NAVKIRAN believes in rendering services in the best possible manner to uplift the deprived community through all major verticals including, education, environment, agriculture, rural development, life skills and health.

NAVKIRAN EDUCATION FOUNDATION, Dhuri is a philanthropic organization established with an idea to enhance the overall efficiency of the human resource through various programs. It started functioning in the year 2010 with its series of psychometric evaluation campaign, through it the grey areas in a child's development were spotted and a group workout was done to help children to experience a multifaceted growth. Not only this but many regular activities and programs were executed which were focused upon human resource development.

From The Desk of the President

This year has been a year of hopes and challenges not surprisingly in the life of an organization working for the poor and the marginalized. Our paradigm of "Relief Activity" is Service to Humanity for seeking pleasure of Creator of humanity. We believe in service without discrimination of color, region or religion. We are proud that a few committed persons came together to shape their commitment to serve the poor and marginalized in the form of building an organization

"NAVKIRAN EDUCATION FOUNDATION, DHURI" that has changed many a lives. We believe that along the years the organization will grow with more people getting associated bringing their experience, expertise, commitment and dedication. Our experiences of hardship and challenges have made us renew our commitment and dedication to the cause.

Beginning with our intervention in Rural Development we will deepen and broaden our engagement with the community. We have been able to forge convergence and synergy for holistic development of the rural community. Our interventions on livelihoods promotion have been layered with issues of governance and interventions of rural people. Creation of cadres from among the partner community has been the strength of "NAVKIRAN EDUCATION FOUNDATION, DHURI" and we will try our best that the trend will continue unabated throughout.

Our main strength lies in large number of trustworthy, altruistic workers, and the enormous amount of trust of our donors and beneficiaries.

NAVKIRAN EDUCATION FOUNDATION, DHURI - is a non-profit, self-funded organization that stems from the idea of revolutionizing the status of deprived in India. It started its operations since 2014 and got registered as Society in 2019 by a group of resilient people, led by our most visionary **president Madam Kiran Bala**, as she was instigated by the condition of rural women and children in Community. The Society aims to help the marginalized and deprived sections of society ignite the fire within them by being their voice of change.

"We strongly believe that our efforts are visible when value transfer takes place"

Kiran Bala
President

NAVKIRAN EDUCATION FOUNDATION, Dhuri

NAVKIRAN EDUCATION FOUNDATION, DHURI is a non-profitable, non-religious, social service organization with the intention of helping the helpless. It does not receive any government funds and as such depends entirely on the generous donations of businesses and individuals.

We are a Non Government Organization (NGO) registered to function on an All India basis. Our prime goal is to provide a better and a happier life for children and women. We run many campaigns and work to improve the quality of life and standard of living of the marginalized and underserved sections of Society. If you feel passionately about helping the youth overcome many social- emotional- economical issues of today then join us and help us build a better tomorrow for the entire nation.

THE PEDAGOGY

NAVKIRAN EDUCATION FOUNDATION, Dhuri is an autonomous nonprofit organization registered under The Indian Societies Registration Act of 1860 with a sole motive to add value to life of all who are economically deprived or for any reason are been disconnected from main stream development. We at NAVKIRAN believe that anything which is good should be available for universal acceptance and understanding. Our pedagogy includes strategies for sustainable development through proliferating information and best practices among masses and ensuring participation of all. Team NAVKIRAN always focuses upon activities to educate masses about all what is good & best, using latest methods of information technology and mass media in all areas such

Education

"Your world is big enough to the limits imposed by your knowledge" this phrase explains it all. The day we started conceptualizing the entire program to bring up the rural literacy rate we had this challenge in our mind. We understand that the humans who have been not in touch with the day to day changes will definitely be apprehensive to those changes being applied to them. To overcome this challenge we started thinking from the frame of reference of the deprived community and developed following tools:

A. Strategic Education Units "SEU": this tool identifies & involves a group of local educated volunteers, motivate and train them accordingly, and incentivize their efforts to teach in their village on regular basis. Their goals will be shaped & observed by block coordinators, and superior checks by district coordinator who will be a part of core team lead by Team NAVKIRAN. Such SEUs will be motivated through block or district level competition inviting individual villages to participate. Such competitions will be strategically designed to understand the assimilation of useful knowledge and information among the masses.

B. news letter: This news letter will include local contribution and will be circulated monthly at block level to encourage the heroes among the rural population. This will be edited to bring out concepts of general understanding, good and to rejuvenate happiness among the masses. It will

President
Navkiran Education Foundation
(Regd.) DHRM

publish articles by local population to circulated useful information and motivate the contributors. It will host various competitions to keep all involved and useful facts to flourish & grow

C e-Choupal: team NAVKIRAN uses latest methods of transformation through the use of information technology, and **e-Choupalis** one of such method were live or recorded streaming will be done through different SEUs and an experts view on a topic will be presented in an interesting and attractive way. It also aims at relay valuable information and messages among the masses through an efficient way where a disconnected lot can be connected with the main stream of development.

Academic Innovation *"Changes call for innovation, and innovation leads to progress"*

teachers and educators in India are always been found to be the key drivers of mindsets. They are the key stakeholders as strategists and innovators to develop human resource with competencies to face emerging challenges. Team NAVKIRAN holds a belief to involve & encourage such academicians who have shown outstanding flare for innovation, particularly for students from rural India, for a much wider impact of combined effort with them towards value education and proliferating literacy among masses. For this Team NAVKIRAN has developed certain innovative tools and ideas as follows:

Activities Undertaken

Rural Education Reforms

NAVKIRAN EDUCATION FOUNDATION, DHURI works to build a high level girls and women education program for poor and under income people

of society. Educational Programs enable women to take more control over their own lives by identifying the clear, practical and realistic steps that they want to take and developing the skills and confidence to take them. For this, they have to gain education. To enable people to move out of their underprivileged status, we shall have to create opportunities for them to be educated. Poverty and backwardness can be reduced through the spread of education. Thus, we initiated an effort to make domestic women educated and knowledgeable. Another focus in program was to train these women how to tackle issues in their personal life, such as sorting out difficult relationships, improving health, dealing with stress and gaining a work/life balance. These women are given adequate knowledge on children education, health, use of individual toilets, solid waste management, kitchen garden, usage of wastewater, polio immunization, and nutrition care for prenatal, post-natal women and communicable disease, HIV/AIDS etc.

RURAL HYGIENE AWARENESS PROGRAMME

Promotion of micro finance for the rural community is one of the fundamental objectives of NAVKIRAN EDUCATION FOUNDATION, Dhuri. The Society continuously makes efforts to improve the living and working conditions of underserved sections in rural and semi-urban areas. The President of the Society, Madam Kiran Bala, has a firm belief that awareness promotes an understanding of opportunities to get involved

Navkiran Education Foundation
(Regd.) DHURI

in self-entrepreneurship or self-employment. He puts emphasis on involvement of youth and adolescents, especially girls; and women in earning a livelihood on their own. The organization believes in giving utmost importance to Programmes related to women empowerment. Thus, in this direction, it helps women organize self-help groups for micro-financing and fight the battle against poverty and illiteracy. We believe that to make any welfare or development program a success, it is vital that it addresses the real problems of the people at the community level. Systematic efforts have to be made for reducing the economic divide between the rich and the poor. One of the effective ways to achieve results is to enable unemployed and underemployed youth – especially those coming from economically poor and socially marginalized background – to be engaged in gainful occupation. That also gives them the confidence and the satisfaction of being financially independent.

AWARENESS PROGRAM FOR RURAL SOCIO-CULTURAL SYMPHONY

NAVKIRAN EDUCATION FOUNDATION, DHURI conducts camps and awareness programs for dalit, minority & backward rural men and women. At these events, the organization distributed booklets emphasizing rural development through socio-cultural improvements, education, health, hygiene, nutrition, empowerment, and better livelihood conditions. The women were also being made aware about their legal rights and duties which

are conferred to them by the Indian Constitution and judiciaries.

Awareness has given the rural community, especially the ones who seen as untouchables, confidence to fight against atrocities. This awareness programme was held to make them socially and economically viable and empowered. Even today, it has been considered that women are not able to work and they should remain at home to do the never ending household chores. To break this stigma, we organized women empowerment programs so that the women too can learn to move forward and earn a living on their own. Apart the awareness on their legal rights, they were also provided with awareness on various employment opportunities available to them.

To enable people to move out of their underprivileged status, we shall have to create opportunities for them to be educated. Poverty and backwardness can be reduced through the spread of education. Thus, how to tackle issues in their personal life, such as sorting out difficult relationships, improving health, dealing with stress and gaining a work/life balance

TREE PLANTATION

Environmental activities implemented through participation in national environment awareness program with action program and plantation program in the community. The program's focus was on giving proper care and treatment to planted saplings, and above all, ensuring a healthy and green atmosphere in the society to end environmental stigma, and ensuring environmental marginalization. In order to impart consciousness and awareness on the importance of protecting the environment, NAVKIRAN EDUCATION FOUNDATION, DHURI undertakes several activities. We encourage people to plant trees. We hold Environmental awareness camps for women/ adolescent youth to create awareness by highlighting problems of various forms of pollutions and the importance of utilizing alternative sources of energy. We distribute saplings in the semi-urban communities. The purpose is just to make people sensitive towards the environment and keep it clean and green for future generations.

HEALTH AWARENESS PROGRAM

Over the time NAVKIRAN EDUCATION FOUNDATION, DHURI has demonstrated considerable ability to address the issues of human suffering and give individuals the necessary inspiration, means, and methods to face various hardships. The organization has also been very successful in galvanizing support from all sections of the society towards causes of deep human concern and creating an all-inclusive model of human well-being. The organization continuously seeks solid partnerships with various like-minded organizations and individuals working toward common goals to alleviate the suffering of individuals afflicted by HIV/AIDS. Mega health awareness programs are organized to deliver awareness on primary healthcare services. The society also helps the community in organizing curative interventions such as detection and removal of cataract, distribution of aids and appliances to the disabled, as well as to treat anemia, psychosomatic disorders, dermatological conditions, and diabetes and general ailments. The community people were also being made aware of benefits of timely vaccination to children i.e. tika-karan.

GOVERNMENT EDUCATIONAL SCHEMES AWARENESS PROGRAM

NAVKIRAN EDUCATION FOUNDATION, DHURI promotes the people who belong to marginalized, underserved, backward, and minority sections of Society. In this regard, it held an awareness campaign, in association with MIT Bonston Lab India Program, to disseminate information regarding the welfare and educational schemes introduced by the Government for the sustainable development of people who belong to minority communities such as Muslim, Jain, Sikh, Buddhist, Parsi, and Christians in semi-urban and rural areas. During this awareness campaign, community development activities were also implemented by building up community development centers where remote villagers get facilities to know about the local, national, international issues through electronic media and print media. The organization follows a systematic approach to organize community based general awareness programs. The main aim of these programs was to educate and motivate people to take responsibilities of their own development and growth and that of community. Community based activities like regular education awareness for children are also undertaken.
